

**With CMS Desk  
streamline operations &  
maximize profitability!**

## About Our Company

CMS Desk was born from the real needs of the construction industry, developed iteratively alongside leading companies that represent a significant portion of the market. We deeply understand the challenges faced in procurement, project management, and workforce operations. Our platform is built to streamline these processes, helping businesses optimize efficiency, reduce costs, and improve collaboration using real-time data and tailored solutions for sustainable growth.

CMS Desk is a comprehensive platform, designed to streamline procurement, project management, and workforce operations. Our all-in-one solution empowers construction companies to optimize project efficiency, control costs, and improve collaboration, using real-time data for better decision-making and sustainable growth.

Your **All-in-One Construction  
Business Management Solution**

With CMSDesk, businesses have reported up to 20% faster operational cycles and 35% reduction in manual errors.

By automating what can be automated, we empower companies to focus on what truly matters: their mission and innovation.

## Why Choose Us?

### Tailored for the Construction Sector

Designed specifically for the construction industry, CMSDesk addresses your unique challenges. Our tools help streamline processes, optimize costs, and ensure projects stay on track, making your business more competitive.

### Integrated Platform for Complete Control

CMSDesk combines all key business functions—procurement, HR, project management, and more—into one unified platform. By automating tasks and centralizing data, we give construction companies real-time insights to make better decisions and improve operational efficiency.

### Continuous Innovation & Support

We're committed to evolving with your needs. With new apps and features developed in response to market trends, CMSDesk ensures your business has the cutting-edge tools required for sustainable growth.

## Our Mission

Our mission is to empower construction companies with a powerful, all-in-one platform that simplifies complex processes, automates tasks, and enhances visibility across operations. We aim to drive efficiency, promote collaboration, and help businesses complete projects on time while controlling costs.

Our platform scales with your needs, providing powerful automation for growing businesses.

## Our Vision

We envision a future where construction companies of all sizes use integrated technology to optimize operations, make data-driven decisions, and achieve long-term, sustainable growth. By leveraging real-time insights and automation, we aim to lead the industry toward smarter, more efficient construction management.

Our goal is to uplift businesses by providing the tools they need to achieve operational excellence, so they can dedicate their energy to innovation, growth, and delivering on their own unique missions and values.

## Our Apps

### CMS Base

**HR & Workforce Management:** Base is designed for HR tasks and streamline workforce management.

### CMS OnSite

**On-Site Management:** Monitor attendance with our easy-to-use OnSite Selfie feature.
